Subject: A Reliable Product

Dear Mr. Dickson:

I just wanted to let you know how much my staff and I here at Amazing Gates have enjoyed working with you and your products. We have been installing your detection loops for two years now and have not had any problems with them. This is the first product in this industry that we have had zero failure with. The reliability has been remarkable. In addition, the overall design saves us installation time, which has saved us money.

All of the customers for whom we have installed your loops have been very pleased with their performance. This certainly enhances our professional status.

Again, we thank you for your professionalism and reliable products and look forward to a long business relationship.

Sincerely,

A handwritten signature in black ink, appearing to read "Aaron Dixon".
