Huntington Beach, CA 92649

Dear Brian Dickson,

This letter is in regards to the Hartford Connecticut Fuel Cell Bus Storage Facility you recently help us with. This was my first project that specified a direct burial loop with detector. The response from BD Loops was not only immediate but incredibly educational. I know have all the materials, tools and knowledge to provide the proper service for my customers loop detector needs. It's been a pleasure dealing with an individual who is extremely knowledgeable in his craft!!! I look for ward to the next project we can work together on. Thanks for all the help.

Sincerely,

Kirk J Belanger
