

Brian,

The entire sales and marketing team here at Service Spring Corp wanted to send a quick note to thank you for taking the time out of your busy schedule and help train SSC with your product line. Your presentation was incredibly helpful and informative.

After your seminar, we as a staff feel more comfortable and confident in our ability to not only sell your product, but offer the ability to help troubleshoot any problems that our dealers might have in the field. We are looking forward to helping our customers by selling the BD Loop product line.

Your training of SSC helps us continue our mission of unequaled service through innovation. BD Loops is a true SSC partner in our mission!

Thank you
Steve Smith
Service Spring Corporation
