"Everything You Need to Know about Loops" presentation at Encon Electronics

BD Loops will be presenting their highly recommended loop class at Encon Electronics on Thursday September 15th from 2:00 - 4:00pm. Stop by and visit with the loop experts. Come earlier for a free lunch and a presentation by All-O-Matic, the gate operator manufacturer.

BD Loops &
The Loop Experts!

WHERE

Encon Electronics
28310 Industrial Blvd. Suite I | Hayward, CA 94545

Presents:

Everything you need to know about Loops

A 90 minute training seminar taught by **BD Loops** "The Loop Experts!"

Class Highlights:

- Learn how to Troubleshoot faulty loop systems in half the time.
- Learn how to properly size and install loops for any door, gate, or parking application in just seconds.
- Become a loop expert, save thousands of dollars in labor and materials over the next years by reducing repeat service calls.
- Receive your free copy of the Loopalator—This program calculates size and placement of loops for any door or gate application. It can even print off a diagram that can be used for quoting your systems or given to your installation crew.

DATE Sept. 15, 2011

TIME 2:00– 4:00 PM
Come Early for free Lunch!

Give Away Items, Door Prizes and More!

Increase your profits!
Learn how to sell
Shadow / Center Loops.

American Fence Association's - Operator Installer School is just around the Corner.

Have you heard about the Operator Installer School? It is a week long course put on by the AFA and IDEA that is all about industry best practices, with specific focus on making sure you have a firm understanding of UL 325 and ASTM F 2200 so all your systems can be compliant.

At the end of the week long course you can take the certification test to become a Certified Automatic Gate Operator Installer (CAGOI).

In my experience the class was well worth the investment. The quality of the instructors is phenomenal, and the networking opportunities are abundant. I truly believe that attending the Operator Installer School has given me valuable insights into how all the components of a gate system work.

If you are looking for hands on training covering all aspects of gate operators and gate operator accessories from leading Experts in their fields, then the Operator Installer School is for you.

If you would like to learn more about the Operator Installer School please click this link: [The Operator Installer School](#)

Sincerely,

Brian Dickson, CAGOI
General Manager
